International Business, AS	Doloto Program	The few specialized course requirements for this degree do not adequately distinguish it from AS Business Administration, as demonstrated by persistently low enrollments. Articulation to transfer partner institutions in International Business will be achieved through the AS Business Administration path of study.
International Dustriess, A3	Delete Program	This for-credit certificate comprised of three 3-credit hour courses is best suited to Continuing Education (CE) students working
Project Management Certificate	Suspend Program	toward Project Management Professional (PMP) designation. As such, this certificate will be suspended while efforts are made to develop a PMP curriculum within CE.
Medical Laboratory Technician AAS	Modify Program	Combined some labs that fit better together (Chemistry/Immunochemistry). And our reduction in clinical hours was to closely fit the Carnegie units for clinical credit hours. We moved that hour into the lab as we were short on time with that. We also determined that a Professionalism and Communication course was necessary due to discussions with clinical partners. So we divided the MDLT 2002 into two classes, one for skills and the other professionalism. This way we can also add the professionalism course into Phlebotomy Certification. No change in overall hours.
Medical Laboratory Technician Certificate (Phlebotomy)	Modify Program	Feedback from advisory committee and from clinical hospital sites; they are asking for more soft skills (communication, ethics, professionalism). It was been on our radar for a long time to make a course for this purpose only instead of cramming it into MDLT 1203. Certificate will go from 5 credit hours to 6 credit hours.
Child Development AS, Early Childhood Education OU transfer option	Modify Program	This degree was created to consolidate three transfer degrees into one. All previous degrees served students transferring to teacher certification programs. This program will serve all students, regardless of the university to which they are transferring. The program will help students satisfy the 4x12 required for education majors as well as leave some room to choose CHLD classes and foreign language based on transfer partner. This will also change the name to Child Development AS, Teacher Certification Transfer Option The degree will change from 63 hours to 60-63 hours.
Electronics Technology AAC Disconding		Business and IT is suppressing the ITCV 2023 Wireless Networking class. As a result this program will remove the requirement and the content will be met elsewhere. The degree will move from 64-66 to 61-63 required credit hours.
Electronics Technology AAS, Biomedical Equipment Option	Modify Program	The degree will move from 64-00 to 01-03 required credit hours.

Information Technology AAS, Systems Support Technician	Modify Program	The Information Technology A.A.S., Networking and Cloud Computing Option has been suppressed. ITCV 2023 Wireless Networking and ITCV 2293 Cloud Computing will also be suppressed. These courses are being replaced with two currently offered courses that are best suited for the Information Technology A.A.S., Systems Support Technician Option. Remove ITCV 2023 Wireless Networking and Replace with CSCI 2473 C Language. Remove ITCV 2293 Cloud Computing and Replace with CSCI 2163 Windows Operating Systems. The number of hours remain the same.
Occupational Therapy Assistant AAS	Modify Program	Changed OCTA 1203 to part of the curriculum instead of a pre req to program.
Pre-Education AA Elementary Education Option	Delete Program	A new transfer degree will be implemented that will incorporate this degree, as well as all teacher certification track transfer degrees. This will result in one transfer degree instead of three separate degrees. The new degree will allow students currently enrolled on this degree to continue moving forward with no need for a teach-out or loss of coursework.
Respiratory Care AAS	Modify Program	These changes will allow the student to have more hands on time with equipment in the laboratory setting to improve low scores 80-84% in 3 or more areas from the last two national board exams. We are required to have test scores above 85%. The student will also be more prepared before going to the intensive care unit at the clinical sites. Due to the Covid pandemic we have lost the ability to have hands on time during lecture classes. These changes are vital to our continue growth in the students understanding of how, why and when to use equipment and improve strategies to assist the patient in their disease state. These changes should improve overall test scores on the national board exams and allow us to produce a more qualified applicant to enter the work force. Added: MATH 1513, 1 credit hour lab to RESP 1242 and created RESP 1243 Respiratory Care Patient Assessment to make a lecture lab course. Added RESP 2301 Clinical Lab Simulation. Removed:1232 Applied Sciences for Respiratory Care. The number of hours remain the same.
Sociology AA	Modify Program	Reduced Sociology requirements from 18 to 12 hours and raised the controlled electives to 12 hours. This was done to be able to create more transfer agreements because of transfer partner requirements. The number of hours remain the same.
Nutritional Sciences	Modify Program	Changed Recommended Electives to controlled electives to help with Course Program of Study. The number of hours remain the same.
Pre Professional Heath Sciences , Pre Physical Therapy Option	Modify Program	Changed Recommended Electives to controlled electives to help with Course Program of Study. The number of hours remain the same.
