TULSA COMMUNITY COLLEGE

November 24, 2025
Number of Surveys (n) = 377 Web Surveys

Frequency tables are presented for every multiple choice and select all that apply questions from the survey. The mean, median, standard deviation, minimum, and maximum values are provided for the variables that are continuous, as well as those scales within the survey that produce a score.

Space for value labels associated with each response option is limited in this document and are often abbreviated for brevity. Furthermore, response options are listed in numeric order within the frequency tables, which may differ from the way they appear to students in the survey. Please always refer to the survey codebook rather than this report document for the exact wording of survey questions and the associated response options.

A note about the use of sex and gender in this report:

Survey results are reported by sex based on the responses to questions SEX, TRANS, and GENDER. The responses to these questions are used to create a new variable called RSEX. RSEX is used for organizing results in the ACHA-NCHA report documents. Respondents are reported as cis men or cis women only when their responses to SEX, TRANS, and GENDER are consistent with one another. If gender identity is consistent with sex at birth AND "no" is selected for transgender, then respondents are designated as either cis men or cis women in RSEX. If respondents select "yes" for transgender OR their sex at birth is not consistent with their gender identity, then they are designated as transgender/gender non-conforming in RSEX. A respondent that selects "intersex" for sex at birth, "no" for transgender, and man or woman for gender identity are designated as cis men or cis women in RSEX. A respondent that selects "intersex" for sex at birth, "yes" for transgender, or selects a gender identity other than man or woman are designated as transgender/gender non-conforming in RSEX. A respondent that selects "another identity" on GENDER is designated missing in RSEX. A respondent that skips any of the three questions is designated as missing in RSEX. Totals displayed in this report include missing responses. Please note: if your data contain a small number of transgender and gender non-conforming students, we advise you to take caution in sharing this report, as these students' responses may make it possible to identify who they are.

HAPPY_1 Over the past two weeks, how often have you experienced any of the following:
Feeling cheerful

	Cis Men		Cis Women		Trans/Gender Non-conforming		Total	
	Freq.	Pct.	Freq.	Pct.	Freq.	Pct.	Freq.	Pct.
