# STRATEGIC PLAN 2026-2028

Building Success Through Education

# About Our Strategic Plan

Tulsa Community College's 2026–2028 Strategic Plan reaffirms our role as a leader in higher education—preparing students to transfer, developing a skilled workforce, and strengthening our community. As we look ahead, this plan demonstrates our commitment to leading in these vital areas.

While the world around us continues to change, our mission remains steadfast: *building success through education*. Guided by our vision of an *educated, employed, and thriving community*, this plan inspires us to meet today's challenges and seize tomorrow's opportunities.

Through conversations with students, employees, community partners, and other stakeholders, three themes emerged as central to our path forward:

- » **Unlocking Opportunities to Post-Secondary Success**
- » **Building Community**
- » **Forging Ahead**

These strategic priorities reflect both who we are and who we aspire to be and serve as the foundation for focused, college-wide action. A tactical plan and mission metrics scorecard will help us measure what matters most—student success—and ensure we stay focused, accountable, and forward-moving.

With this plan, we affirm not just what we hope to accomplish, but how we will move forward—together—with purpose, clarity, and a shared belief in the transformative power of education.

## Focus

This plan sets a clear direction for where we are headed for the next three years. Supporting that direction are focused, intentional tactics—actions designed to move us forward and reflect our shared priorities. These tactics will be reviewed regularly to ensure they stay relevant in a rapidly changing world. Annual planning cycles help teams align their efforts and adapt as new challenges and opportunities arise.

## Progress

We will track progress through measures tied to each tactic, helping us understand what is effective and where we can grow. A mission metric scorecard will monitor our advancement toward key student success metrics such as retention, graduation, and transfer. These indicators reflect how we are living our mission and moving toward a stronger future for our students and community.

## Action

A centralized system will support how we organize, monitor, and update our efforts across the College. This approach strengthens collaboration and keeps us focused on what drives results. As we move forward, we will use data and insight to refine our work and stay on course toward meaningful, lasting student success.
