

TCC email setup for iOS

Current to iOS v9.3.5

1. Begin email setup from **Settings > Mail, Contacts, Calendars**

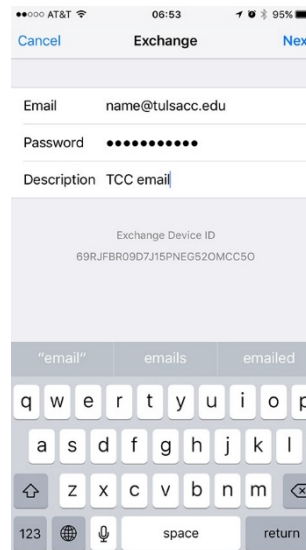

2. Tap **Add Account**

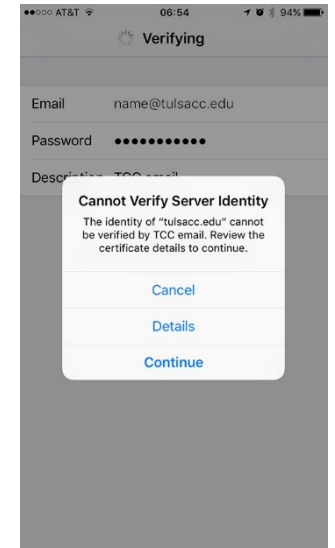

3. Tap **Exchange**

4. Input your TCC email address and your TCC network password and tap Next
The description can be anything you want

5. After you tap **Next**, you may receive the following warning. Simply tap Continue here

6. Once your email address and password have been identified, the last screen you will see is the one below. From it, you can choose what to sync. After that, tap **Save**
